

K.Websign® is a KEYNECTIS trust service that provides **full dematerialization of your transactions, documents, contracts, purchase orders and invoices on the Web and in ASP (Application Service Provider) mode.**

K.Websign® enables your customers to electronically sign documents, contracts, subscriptions and send them to your organization via Internet, with the **same legal value as paper documents.**

Thus, KEYNECTIS provides and preserves the proof of your electronic transactions and documents (processing of electronic signatures, time stamping and archival of documents) in **compliance with legal and technical state-of-the-art practices.**

A unique solution

- ⊕ Easy to integrate by the sender application
- ⊕ Easy to use by the customer
- ⊕ Secured (data, flows and hosting)
- ⊕ In conformity with laws governing electronic signature
- ⊕ Turnkey delivery
- ⊕ No specific software required on the customer terminal

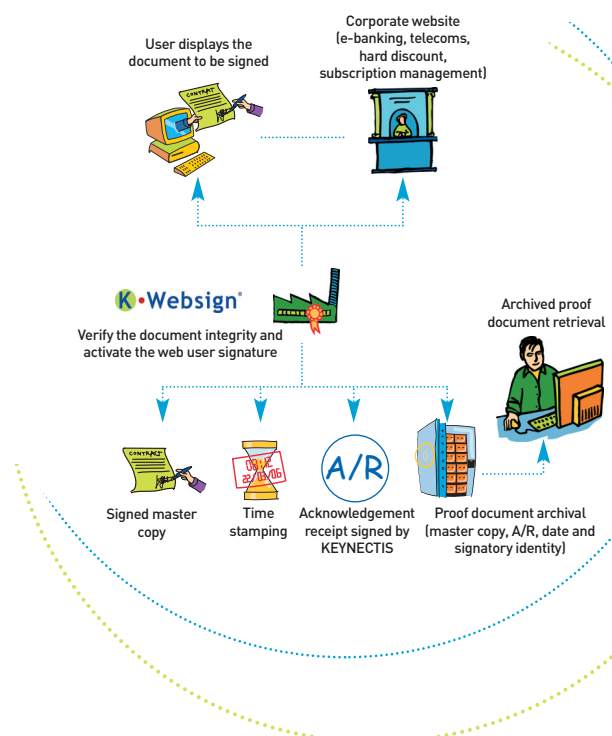

Your benefits

- ⊕ Save the processing and dispatching expenses of paper files
- ⊕ Limit the costs due to regulatory and technical constraints linked to the installation of an electronic proof system
- ⊕ Increase your products selling
- ⊕ Improve your e-services

The **K.Websign®** service includes the right of access to KEYNECTIS trust services platform, i.e. to the following services:

- Issuance of electronic certificates
- Validation of the electronic signature of contracts and/or transactions
- Time stamping of electronic proofs
- Archival of electronic proofs

These trust services are operated by KEYNECTIS within the framework of its highly secured trust center, which is regularly being audited in compliance with highest standards (ETSI-TS 101 456).

KEYNECTIS provides you with:

- ⊗ **An operational service in less than two months:** our highly secured platform can be connected to your Web environment within few weeks
- ⊗ **Its leading operator's expertise:** you are outsourcing the management of the process archival and of an electronic proof to an acknowledged and audited trusted third party
- ⊗ **Cost control:** thanks to the cost model of the K.Websign® platform
- ⊗ **A customized model adapted to your business environment**

→ K. Websign® characteristic features

FOR YOUR ORGANIZATION
